

## NEW ENGLAND BRIEFS.

The farm buildings of Willard Maxwell at Winthrop, Me., were struck by lightning and burned, causing a loss of \$300.

John Waterman, 40 years of age, was drowned in Little Narragansett bay by a fall from a sail boat.

Alexander Drezek, aged 33, was drowned while bathing at Thomaston, Conn.

The first accident in the excavation for the new dry dock at the navy yard at Portsmouth, N. H., occurred when George Nelson was undoubtedly fatally injured by having his skull crushed by a falling stone.

The second case of smallpox to develop within a week in a crowded French-Canadian settlement at Lowell, Mass., was that of Michael Soucy, who was taken to the contagious hospital.

Theodore Eaton, aged 24, was drowned at Bangor, Me.

The boat house of the Niben club, at Pushaw lake, near Bangor, Me., was burned. Loss, \$11,000.

Charles W. Parsons of Manchester, Mass., who had his hand blown off by the explosion of a gun on July 4, has died from his injuries.

William S. Wakefield, a carpenter and contractor and one of the best known citizens of Saco, Me., died of consumption, aged 59. He had always been an active political worker in the city, and had served in both branches of the municipal government.

James O'Donnell, 35 years old, while passing from a vessel to a wharf at Hingham, Mass., fell into the water and was drowned.

James Snee and a companion crawled under the gates at a crossing at Haverhill, Mass., and attempted to cross the tracks in front of a freight train, when Snee was struck by the engine and instantly killed.

A barn belonging to William Corey at Hartford was struck by lightning and practically destroyed.

Miss Carrie L. Gibson, a prominent clubwoman of Maine, died at her home at Fairfield after a short illness.

A big street railway deal was consummated at Milford, Mass., whereby the Milford, Holliston and Framingham, the Milford, Attleboro and Woonsocket, and the Westboro and Hopkinton Street Railway companies virtually pooled their interests. By this arrangement four grade crossings will be avoided and a saving of at least \$10,000 netted.

The project of the Kennebec Water Power company to raise the level of the water in Moosehead lake will probably be abandoned, because of the great expense for damages.

Edward Coughlan, 8 years old, was drowned at Waltham, Mass.

Michael Moynihan, aged 21, was drowned at Waterbury, Conn., while out riding in a leaky boat.

Michael Dougherty, aged 32, died at Bala, Mass., as a result of injuries received by a fall on a coal schooner.

Wfred Joubert, aged 3, was drowned in a bathtub at Lawrence, Mass.

The United States district court at Portsmouth returned two indictments against Helena F. Jones of Antrim, N. H., an Brooklyn, on the charge of using the mails for fraudulent purposes.

Rev. Peter F. Higgins, aged 27, died at the home of his parents at Worcester, Mass. He had been connected with the diocese of Springfield, Mass. For a time, he was pastor of St. Patrick's parish at August, Ga.

Hertz D. Royce, aged 43, a meat peddle committed suicide at Stafford Spring Conn., by hanging. Royce was suffering from sunstroke.

Annoy Wilkins, aged 75, a farmer, committed suicide at Oakland, Me. Cause, health and despondency.

School teacher Ames, which grounded and fell at Yonkers, Mass., was pumped it and hauled afloat, and then beached at the flats on the west side of the harbor.

A house on canvas shows that there are 1273 Cuban teachers at Cambridge Mass., out of the 1460 originally expected.

Rev. S. Bender of Calais was elected principal of the Maine conference seminary, held the place of J. F. Haley, who has resigned.

Mayor Luard, at a meeting of the Lawrence, Mass., board of aldermen, announced that the Lawrence Gas company had raised the price of gas to \$1 per 1000 feet.

George March, 70 years of age, a veteran of the Civil war, was found dead near San, Mass. Death was due to a rupture in a vein.

## AT WASHINGTON.

Washington, July 17.—Yesterday was the most exciting day Washington has known since the battle of Santiago. At the very beginning came Admiral Remy's cablegram announcing the defeat of the allied forces at Tien Tsin, and then came the account of the fight.

A special cabinet meeting was at once held on receipt of this news, with such members present as happened to be in town. The best indication of its nature was the departure for the White House of Secretary Hay immediately after the meeting. He had a long talk with President McKinley over the long distance telephone, and it soon became known that the president had decided that it would be best for him to come back from Canton to the national capital.

President McKinley left Canton for Washington last night in a special car.

The cabinet officers talked over the possibility of reinforcing the troops in China. There was no disposition shown to withhold these troops; the only question was as to the amount of additional force available.

Secretary Root was reluctant to admit that there was any necessity for more American troops in China, and said that thus far he had issued no orders for reinforcements. Continuing, he said that the regiments already slated for Chinese service, those now in China and those about, amount to 10,000 men of all arms.

Secretary Root said that in view of the small standing army of the United States, of the insignificant force of field artillery as compared with that of the great European powers and of our lack of territorial interest in China this 10,000 men represented more than the United States' pro rata share of the international force which is to operate against Pekin.

The situation has changed so rapidly from day to day as to alter the estimate of the foreign commanders several times. It is possible that the estimate of troops needed for Chinese service will be again increased. If so the United States will respond. We might possibly gather between 3000 and 4000 additional troops. This, however, would be the limit unless the war department disregarded a recommendation of General MacArthur and drew still further on the available troops in the Philippines.

The decision of the administration at the end of a most eventful day is that the United States government is still not at war with the government of China. The big happenings at Tien Tsin, coming on top of the stories of the last struggle at Pekin, have not affected the attitude of the administration on this point; the United States and China are technically at peace.

But this official statement should not be accepted as indicating a purpose on the part of the United States government to hold its hand in the administration of swift and adequate punishment upon the Chinese, without regard to station, who may be responsible for the outrages of the past few weeks. It means simply that the government of the United States feels that it can best achieve that purpose by regarding the status officially as one of peace. To hold otherwise would seriously cripple the government in its efforts to obtain satisfaction for the outrages the Americans in China have suffered. We should find closed the ports of China, which are now open to us, and all sorts of impediments would be encountered that now are missing.

Therefore, according to the administration's view, a declaration of war would afford not even a technical gain, while it would actually be a heavy drawback. Chairman Cannon of the house appropriations committee is authority for the statement that money in plenty is at the disposal of the president to meet the present emergency, and that there is no necessity for a called session of congress on that score.

**Trying to Quiet Blanketers.**  
Solvay, Minn., July 17.—Captain Mercer has returned from a conference with the Blanket Indians whom he endeavored to quiet. The majority of the Indians appeared willing to confer with the whites, but hesitated on account of the absence of four bucks who they claimed are leaders. Captain Mercer gave the Blanketers until Tuesday night to come to terms. Settlers near here believe the danger of an uprising has passed.

**New Evidence Against Neely.**  
New York, July 17.—New evidence against C. W. P. Neely, in jail in this city upon a charge of embezzling Cuban postal funds, will be presented by Acting United States District Attorney Baldwin in the event that Judge LaCombe, before whom the case will come up, shall desire further testimony before deciding to order the surrender of the accused to the authorities in Cuba.

**Nelson Wins Golden Wheel Race.**  
Cambridge, Mass., July 17.—Johnnie Nelson of Chicago won the six-days' Golden Wheel medal race at Charles River park track, making 381 miles, 790 yards; Pierce, second, 383 miles, 1023 yards; Stinson, third, 376 miles, 1574 yards; Miller, fourth, 357 miles, 1650 yards. The men rode 12 hours.

**Firebug at East Weymouth.**  
East Weymouth, Mass., July 17.—The residence of Michael Fitzgerald on West street was totally burned with its contents early Sunday morning by an incendiary fire. Mr. Fitzgerald, who was alone in the house, was badly burned, being barely able to escape with his life, not even saving his clothes.

**Will Use Twenty-Two Rooms.**  
New York, July 17.—Republican national headquarters will be on the third floor of the Metropolitan Life Insurance building in this city. There are 22 rooms, six more than the committee had in the same building four years ago.

**Balance in Americans' Favor.**  
Manila, July 17.—During last week's scouting three Americans were killed and two wounded, and 35 of the rebels were killed. Fifty rebels were captured and 25 rifles and 14 tons of powder and ammunition taken.

**But Twelve Smallpox Patients.**  
Fall River, Mass., July 17.—Only 13 patients now remain at the pest hospital at Somerset Junction, and the majority of these will be discharged during this week. The city is now believed to be free from smallpox.

## THE EASTERN WAR.

London, July 17.—To the news in yesterday's papers purporting to give details of the last fearful struggle for life of the foreigners in Pekin which resulted in their annihilation, is now added a story of the defeat of the allies in their assault Friday on the native city of Tien Tsin.

In the fighting the Americans bore their part and suffered terrible loss. Colonel Liscum of the Ninth infantry, together with 30 other officers and men, were killed, and according to the chief surgeon of the regiment 25 percent of the men were wounded. Other nations suffered in like proportions in the all-day battle. At dusk a final attempt was made to carry the enemy's works, but it failed.

In estimating the difficulties fronting the allies it must be remembered that while the native city, or city proper, is walled and well defended with embayed positions for heavy artillery, the European compound occupied by the allies is without such means of defense.

The settlement is surrounded by a low mud wall, which could be easily scaled. That these two disasters will have the effect of adding fuel to the flame of revolt or anti-foreign agitation or whatever the uprising may be called, certainly is to be feared.

Up to this morning there has been no further news received regarding the reported massacre at Pekin from any source. In the house of commons last evening, beyond an admission that there was no ground for hoping that the report was not true, Mr. Broderick, parliamentary secretary to the foreign office, had nothing to communicate. An unusual hush fell upon the chamber when the subject came up. A few members doffed their hats, but otherwise there was no demonstration.

Telegrams from Shanghai and Chefoo indicate an increasingly serious state of affairs. It is alleged that the foreign consuls at Shanghai have cabled their governments that there is urgent need of more warships to protect that port, owing to the menacing attitude of the Chinese and the temptation to loot the vast stores of merchandise recently accumulated there. It seems that the Chinese have already threatened to fire the great oil tanks on the Pao Tung side of the city.

From Chefoo comes the report that the entire adult male population of the three provinces of Chi Li, Shan Si and Shan Tung are massing to defend Pekin in the conviction that the powers mean war. There is little doubt that a further check of the allies at Tien Tsin would be the signal for a general anti-foreign rising throughout China.

**Low Wallace Is With McKinley.**  
Indianapolis, July 17.—Efforts to persuade General Lew Wallace to preside over the national Anti-Imperialist league meeting to be held in this city have come to naught. General Wallace says he will take no part in the meeting and is not in sympathy with it. He is opposed to the Democratic platform, and says the so-called paramount issue plank in the platform to encourage rebellion in the Philippines. General Wallace declined yesterday that while he is not in accord with the administration on some points, he will support the Republican ticket.

**Relieved of the Charge of Murder.**  
North Adams, Mass., July 17.—Alexander Grant and David King are free men after passing three weeks in confinement under the most serious accusation that can be brought against a man. The complaints against them for alleged murder were finally disposed of when they heard read by the clerk the decision of the court that in the absence of any testimony against them they were discharged.

**Had No Time to Lose.**  
Worcester, Mass., July 17.—Fire drove out the occupants of the Hotel Stanwick in their night clothes Monday morning. The elevator and stairways were cut off by smoke, and the firemen had to take the people down ladders from windows and roof. The fire started in the basement, and a general alarm was sounded, calling out the entire department. All the people were rescued.

**Many Thousands Will Be Idle.**  
Fall River, Mass., July 17.—Over 8000 mill employees will be idle in this city this week, because the corporations employing them are entering upon or continuing the first half of the four-weeks' curtailment plan, agreed to by them for the purpose of relieving the glut in the print cloth market and stimulating the purchase of the production of local mills.

**Toboggan Out of Gear.**  
Providence, July 17.—An accident occurred on the Russian toboggan slide at Mount Hope park Sunday, in which eight persons were injured. All received cuts and bruises, but nothing of a very serious character. The accident was caused by one of the cars crashing into another, which had slipped away from the platform.

**Admits Being a Criminal.**  
Providence, July 17.—A housebreaker captured here, who gave his name as Joseph Grace, has admitted that he is Fred Hamill, and that he has been connected with several crimes. He is 29 years old, and has served sentences in New Hampshire and Massachusetts, and at the present time is wanted in Connecticut.

**Lost His Nose and an Eye.**  
Keene, N. H., July 17.—C. Fish of Athol, Mass., 19 years old, was terribly injured in a bicycle collision here and is in a critical condition. He was riding down Cemetery hill when he collided with a carriage containing two ladies. His nose was torn off, one eye was gouged out and the other eye was badly injured.

**It Saved His Leg.**  
P. A. Danforth, of LaGrange, Ga., suffered intensely for six months with a frightful running sore on his leg, but writes that Bucklen's Arnica Salve wholly cured it in ten days. For Ulcers, Wounds, Burns, Boils, Pain or Piles it's the best salve in the world. Cure guaranteed. Only 25c. Sold by Flint Bros., Druggists.

Prunes afford the biggest nerve or brain food, supply heat and waste, but are not muscle-feeding. They should be avoided by those who suffer from the liver.

## May Collect by Legal Process.

Boston, July 17.—Bank Examiner Wing has announced his intention of taking legal steps to collect notes held by the defunct Globe National bank. The list of noteholders is long, he says, and, if necessary, the persons whom the bank accommodated, and who have not settled their obligations, will be forced into bankruptcy.

**Priest Drowned While Bathing.**  
Worcester, Mass., July 17.—Brother Patrick Nestor, S. J., of Holy Cross college, was drowned while bathing in Coe's pond, Monday evening. He was a strong swimmer, but was overcome by cramps. Other brethren from the college were near in a boat, but none of them could dive. He was 42 years old.

**An Engineer's Terrible Death.**  
Greenville, N. H., July 17.—Engineer Joseph Dion, aged 53 years, was instantly killed Monday in a flywheel of an engine in a mill of the Columbia Manufacturing company. There was no one present when the accident occurred. The top of Dion's head was knocked off and he was otherwise bruised.

**Fractured Spine Caused Death.**  
Portland, Me., July 17.—F. N. Hatch of New Bedford, Mass., who met with an accident a few days since, died Monday from the effects of an operation. He was operated upon for a fractured spine, caused by diving into shallow water at his summer home at Mere Point.

**Vermont's Long Drought.**  
Chester, Vt., July 17.—The prevailing drought for the past seven weeks has been somewhat broken by recent showers, but not enough rain has fallen to improve the grass crop or vegetation in general. The berry crop is suffering for want of water.
